

Greetings from my kitchen counter! I have welcomed a new imaginary co-worker into our home, Dale, who gets blamed for the dirty dishes left out, the paper sprawl and anything else that annoys us while we work from home alongside Ethel, our Springer Spaniel.

On behalf of the entire CuraMedix team, I wanted to let you know that although working remotely, we are available! Whether you are interested in getting more information on the technology or a specific product, setting up an online demo, reading up on clinical evidence or speaking with peers who have successfully incorporated EPAT/ESWT into their continuum of care, let us know. We are keeping regular business hours so that you can connect with us whether by phone, email, text, or video. Don't hesitate to reach out!

We know that this is an especially challenging time for you as medical professionals as you look to take care of your staff and patients as well as your own families and yourself. Please know that we are here for you and value all that you do.

Be well, be safe and keep in touch!

All the best,

Elise B. Hamann
